- 

## Professional Summary

---

Computer Science student at **ESI-SBA** with a strong interest in backend engineering and full-stack web development. I enjoy designing reliable APIs, building scalable systems, and solving algorithmic problems. My projects focus on clean architecture, database design, and writing maintainable code. Currently expanding my frontend expertise with React while continuing to deepen my backend knowledge.

---

## Education

---

**École Nationale Supérieure d'Informatique – Sidi Bel Abbès (ESI-SBA)**  
**Bachelor's in Computer Science**

**Expected Graduation:** 2028

---

# Technical Skills

---

## Languages

- JavaScript
- TypeScript
- Python
- C++
- SQL

## Backend

- Node.js
- Express.js
- REST APIs
- Prisma

## Frontend

- React
- Tailwind CSS
- Vite

## Databases

- MySQL
- MongoDB
- SQLite

## Tools

- Git
- GitHub

- Docker
- 

## Selected Projects

---

### Ledger — Minimalist Finance API

- Built a REST API implementing double-entry bookkeeping principles.
- Implemented idempotency keys, audit logging, and CSV export.
- **Tech:** Node.js, Express, SQLite

### RouteOpt — Logistics Optimization Engine

- Developed a logistics system using graph algorithms (Dijkstra and A\*) for route optimization.
- Improved performance with Redis caching and MySQL persistence.
- **Tech:** TypeScript, Express, React, MySQL

### ConcoursDoctor

- Backend developer for a team project managing doctoral competition applications.
- Designed APIs, database schema, and data layer using Prisma.
- **Tech:** Express.js, Prisma, MySQL

Additional projects, source code, and detailed case studies are available in my portfolio.

---

## Areas of Interest

---

- Backend Engineering
- Software Architecture
- API Design

- Database Systems
  - Full-Stack Web Development
- 

## Languages

---

- Arabic — Native
  - English — Professional Working Proficiency
- 

## Availability

---

Open to internships, collaborative projects, and software engineering opportunities.
